HAVE YOU... Been dreaming about starting your own business? You want your business to fit you like a tailor made suit. You want to do in your business what you love doing most: contribute positively to society whilst generating a healthy income. Looking to balance making a positive difference to other people's lives, to our society, to the environment, to our world and enjoying a financially sustainable living?

The only reasons why you did not start yet might be that:

- you did not have a concrete business idea,
- or you did not have a clear idea about what first steps were needed,
- or you did not feel like doing it alone,
- or you simply never took the time to make it happen.

If you really want to make it happen, this is your opportunity

WHAT IS THIS PROGRAM ABOUT?

The '4M's will give you wings to make your business dream come true!

There are four major topics any startup needs to think and work through. The 4M stands for Motivation, Market, Means and Mentor.

Motivation: During the program you will check if your business idea is a good fit for you. You will work out your enterprise's vision and fuel your motivation to make it happen.

Market: You will check if there is a promising market for your idea. You will define a clear business plan by crafting a powerful picture of your preferred clients and their aspirations. You will create and test your concrete offer and ideally find some first happily paying clients.

Means and Mentor: You build a strong foundation to generate profit whilst creating a positive impact on society, bringing all required people and resources on board. Doing all this, you will have a team of peers on your side that actively encourage and support you. You get access to a variety of successful entrepreneurs that share their insight and experience with you. You also have a mentor on your side.

Our program mission is to help you make your dream enterprise become real.

HOW IT WORKS

This online program runs over a 12 week period. Before you enter you enjoy a 1-on-1 power hour with one of our mentors. This is a strategy session to define in detail how you most benefit from this program. These insights are also used to tailor the program to the individual participants' needs. The program itself includes 2-weekly group sessions, weekly mastermind sessions with your program peers, and monthly expert calls with successful entrepreneurs all over the globe. You can expect to spend about 8-12 hours per week learning, interacting with your peers and especially working on your own dream enterprise based on suggested assignments. You receive group and personal feedback from your mentor.
